***Election/Restrictions***

1. Claims 7-14, deemed allowable, since they depend from the allowable linking claim 1. It should be noted that independent claim 1 links the elected invention of Group A and non-elected invention of Groups B-E. Claims 7-14 are directed to inventions of Groups B-E. Therefore, claims 7-14 are now rejoined with the elected invention of Group A.

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The claims are allowable because prior art fails to teach that the positioning member is elongated with one end adjacent the arbor and the other end adjacent the brake mechanism and the positioning member is configured to pivot around the arbor as set forth in claim 1.

Regarding claim 1, Tannewitz (1,811,066) teaches a frame including a table defining a work surface and a rotatable blade coupled to the frame and extendable up through the work surface. Tannewitz also teaches an adjustment mechanism selectively raises and lowers the blade relative to the table and a brake mechanism that is configured to engage and stop the blade. Tannewitz also teaches a brake positioning system which is configured to adjust the position of the brake mechanism to maintain the brake mechanism in an operative position relative to the blade as the blade is raised and lowered. Tannewitz also teaches that the brake positioning system includes a positioning member, which is configured to maintain the brake mechanism adjacent, the blade. However, Tannewitz fails to teach that the positioning member is elongated with one end adjacent the arbor and the other end adjacent the brake mechanism and the positioning member is configured to pivot around the arbor as set forth in claim 1.

The reference above by itself or in combination with the other cited prior art fails to teach the claimed invention set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Comment*

3. It should be noted that in view of the amendment to claim 1 and cancellation of claims 15 and 17, the obviousness-type double patenting rejection over claim 2 of copending application No. 09/92935 is now moot.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ghassem Alie whose telephone number is (571) 272-4501. The examiner can normally be reached on Mon-Fri 8:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on (571) 272-4514. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
